

STRONG PARTNERSHIPS: SAFER COMMUNITIES

Problem:

Revolving Door of Incarceration

Planning/Design

Provide enhanced services to a targeted population - (women, LGBTQ +, low income, and people of color) employing a person-centric approach in identifying the needs of the individuals using the LSI-R and LOCUS (best practices) to develop strategies for accessing community partner services.

Lake County Jail High Utilizers Program Jail Days

Lessons Learned

- ▶ 67% needed medical/dental health literacy
- ▶ Improved Jail operations - notifications of rebooked/released inmates
- ▶ Expansion of enhanced jail programming
- ▶ Consistent data collection through Service Point (HUD)
- ▶ Increased Transportation didn't always improve access
- ▶ Defining what a success model is for a client

Next Steps

- ▶ Expanded high utilizer program with an additional 30 persons
- ▶ Crisis Outreach and Support Team (COaST) mobile response launched October 1st
- ▶ Peer Support Specialist - Hired
- ▶ Leveraging masters level interns
- ▶ Working on pretrial release with electronic monitoring and expedited pretrial assessments

Outcomes: 25 Clients

- ▶ 14 Successful completions
- ▶ 75% Received Sustainable Housing (6 of 8) and obtained Employment (12 of 16)
- ▶ 77% Accessed & received Substance Use Treatment (13 of 17) and 80% Remained in Recovery
- ▶ 71% Accessed & received Mental Health Services (5 of 7)
- ▶ 71% Accessed Family Advocacy Services (5 of 7)
